

# SIMAMKELE TANCU

My Portfolio | LinkedIn | GitHub | Email Address | 0656013640

Junior JavaScript Developer passionate about building dynamic, full-stack web applications using Angular, Node.js, and Express to create scalable, user-centric solutions. Currently contributing to innovative projects at Metropolitan, I collaborate closely with teams to deliver high-quality results. Previously, as an End User Support Intern, I developed a strong foundation in IT operations and problem-solving by providing technical assistance and troubleshooting hardware, software, and network issues, supported by certifications in Operating Systems and Cisco Networking. My training at Life Choices Coding Academy further deepened my web development expertise and ability to work effectively under pressure. Driven by continuous learning and a passion for technology, I am committed to growing as a developer and contributing to impactful projects.

## LEARNING JOURNEY

### Life Choices Coding Academy

Certificate in Fullstack Web Development  
September 2023 - March 2024

### CodeTelligence Academy

Software Development fundamentals  
Jan 2023 - June 2023

### Usasazo High School

Matric 2022

## COURSES / BADGES

## ADDITIONAL INFO

**Location:** Cape Town, South Africa

**Date of birth:** 02 March 2004

**Languages:** English, Xhosa

**Availability:** Immediately

## WORK EXPERIENCE

### Metropolitan

Junior Frontend and Backend Javascript Developer  
Dec 2024 - Present

- Develop and maintain both frontend and backend components of web applications, ensuring seamless integration between client-side (Angular) and server-side technologies.
- Assist in the design and implementation of dynamic, responsive user interfaces using Angular, HTML, CSS, and TypeScript, ensuring a smooth user experience across devices.
- Contribute to backend development by integrating APIs, managing databases, and working with server-side technologies to support frontend functionality.
- Collaborate with cross-functional teams to debug, test, and deploy software updates, ensuring high-quality, performant applications.
- Participate in code reviews and optimize Angular components, services, and modules for improved performance and maintainability.
- Provide ongoing support for web application features, troubleshooting bugs, and enhancing functionality based on user feedback and project requirements.
- Maintain clear and concise documentation of development processes, code changes, and issue resolutions to ensure smooth collaboration within the team.

### Momentum Group Limited

End user Support -Intern  
June 2024 - Dec 2024

- Provided technical assistance and troubleshooting support to end users, ensuring efficient resolution of hardware, software, and network issues.
- Assisted in the installation, configuration, and maintenance of IT equipment and software applications.
- Responded to user inquiries and reported issues through ticketing system, maintaining accurate documentation of support activities.
- Collaborated with team members to enhance user experience and streamline support processes.

# WORK EXPERIENCE

## LC Studio

Technical Intern

April 2024 - June 2024

- I've completed my networking learning journey and am now embarking on the Cyber Security path.
- Understanding Scrum methodologies
- Familiar with Operating Systems
- Actively engaging in hands-on labs and exercises
- Exploring emerging trends and best practices in cloud computing

# SKILLS

## Technical Skills

- JavaScript
- Angular Js
- TypeScript
- Node Js
- Mongo DB

## Soft Skills

- Team Player
- Resilience
- Accountability
- Verbal Communication
- Problem Solver
- Creative Thinker
